

#Barrier Reef Way, Eastbourne!!!

Please be aware!! My daughter 19 years old works for the NHS, and she recently had to attend a training day at the Sovereign Harbour Medical Centre with a colleague.

Rather than taking a space in the Medical Centre Carpark that may be needed by an Elderly or disabled person they parked their cars in an available public parking space within an adopted Road, and walked to the centre.....

Obviously a Resident!!!! thought it appropriate to pour a Tar like Liquid down each of their cars on the pavement side.....

All of the properties in this Adopted Road have multiple off street parking!!! The ladies only parked legally as a one off between the hours of 9.00am-4.30pm, I would like to think that I will find the person who disapproved of them parking there(And kindly request that they remove the substance and repair the paintwork). Maybe this person uses the Medical centre and would someday receive the care from my daughter and her colleague!!!!!!!
