We're so...

Help us put £40,000 into the Community Chest

For many years, people have told us that a community centre will never be built in Sovereign Harbour, but it is now very close to becoming a reality.

Although construction of the structure is funded, no cash is available for equipment, so it is up to us all to find the money. The coming year will determine if our community centre is going to be run-of-the-mill, or outstanding; the deciding factor will be how much effort harbour residents are prepared to put in the make the difference.

It is estimated that about £40,000 will be needed and, once construction has started, the Community Association will be able to start bidding for grant funding from a number of sources. However, the support of residents will also be vital if the target is to be met.

Put simply, if every harbour household donated just £10, the target would be met.

Although it would be great if this happened, it's unlikely but, there are many organisations that offer grant funding to charities, and the SHCA trustees will be looking at all possibilities.

To get the ball rolling, the Sovereign Harbour Residents Association, as agreed by the members at this year's AGM, has donated £500.

However, you might like to organise your own fundraising event to help fill the Community Chest.
